## EXAMINER'S COMMENTS

### *Response to Arguments*

1. Applicant's arguments filed 5/20/2004 in the Amendment and Supplemental Amendment have been fully considered and are persuasive.
2. Note that the complete claim list in the Supplemental Amendment is considered the most recent and is therefor the basis of this Action.

### *Reasons for Allowance*

3. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a wrapping machine with an inclined base plate and the claimed relationship between the tension rollers, strain gauge, idler rollers, and infeed flow path.

The most pertinent prior art, SHERER ET AL, does not disclose the use of a strain gauge roller or the claimed relationship between the tension rollers, strain gauge, idler rollers, and infeed flow path.

KALLNER ET AL discloses a strain gauge roller, but not the claimed relationship between it and the other rollers and infeed path.

Art Unit: 3721

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
